A project report on

TITLE OF THE THESIS!!

Submitted in partial fulfillment for the award of the degree of

Master of Science in Data Science

by

ABC

(Reg. No. 22MDT1000)

SCHOOL OF ADVANCED SCIENCES

April - 2026

Vellore Institute of Technology
(Deemed to be University under section 3 of UGC Act, 1956)

DECLARATION

I hereby declare that the project entitled **Title of the Thesis!!** submitted by me to the Department of Mathematics, School of Advanced Sciences, Vellore Institute of Technology, Chennai, 600 127 in partial fulfillment of the requirements of the award of the degree of **Master of Science in Data Science** is a bona-fide record of the work carried out by me under the supervision of **Dr. David Raj M**. I further declare that the work reported in this project, has not been submitted and will not be submitted, either in part or in full, for the award of any other degree or diploma of this institute or of any other institute or University.

Place : Chennai

School of Advanced Sciences

CERTIFICATE

This is to certify that the thesis entitled **Title of the Thesis!!** is prepared and submitted by **ABC (Reg. No. 22MDT1000)** to Vellore Institute of Technology, Chennai, in partial fulfillment of the requirement for the award of the degree of **Master of Science in Data Science** is a bona-fide record carried out under my guidance. The project fulfills the requirements as per the regulations of this University and in my opinion meets the necessary standards for submission. The contents of this report have not been submitted and will not be submitted either in part or in full, for the award of any other degree or diploma and the same is certified.

Signature of Guide :
Name : **Dr. David Raj M**

ABSTRACT

Abstract to your work. Smith (2022)

Keywords: Machine Learning, Deep Learning...

ACKNOWLEDGEMENT

With immense pleasure and a deep sense of gratitude, I wish to express my sincere thanks to my supervisor *Dr. David Raj M*, Assistant Professor, School of Advanced Sciences, Vellore Institute of Technology (VIT), Chennai for his motivation and continuous encouragement, this project would not have been successfully completed.

I am deeply grateful to the honorable Chancellor of VIT, *Dr. G. Viswanathan*; the Vice Presidents, *Mr. Sankar Viswanathan*, *Dr. Sekar Viswanathan*, and *Dr. G. V. Selvam*; the Executive Director, *Dr. Sandhya Pentareddy*; the Assistant Vice President, *Ms. Kadhambari S. Viswanathan*; the Vice Chancellor, *Dr. V. S. Kanchana Bhaaskaran*; the Pro Vice Chancellor of VIT Chennai, *Dr. T. Thyagarajan*; and the Additional Registrar, *Dr. P. K. Manoharan*, for motivating me to carry out this project at Vellore Institute of Technology, Chennai.

I express my sincere thanks to *Dr. S. Mahalakshmi*, Dean, School of Advanced Sciences, VIT, Chennai and *Dr. K. Muthunagai*, HOD, Mathematics and Computing, School of Advanced Science, VIT, Chennai for their support and encouragement.

I wish to extend my profound sense of gratitude to *my parents* for providing me the moral support and encouragement whenever required.

List of Figures

2.1 An example figure. 3

List of Symbols, Abbreviations and Nomenclature

ANN	:	Artificial Neural Network
CNN	:	Convolutional Neural Network
RNN	:	Recurrent Neural Network

Chapter 1

Introduction

The introduction is a shorter version of the rest of the report, and in many cases the rest of the report can also have the same flow that summarizes the major contributions of the project. The chapter should provide a critical and concise outline of the subject to be covered by the dissertation and indicate how this study will contribute to the subject. This chapter should include the descriptions such as: (not necessarily in that order, but what is given below is a logical order). Example of a citation: Smith (2022)

- Background [The setting of the scene of the problem].
- Statement [Exact problem you are trying to solve].
- Motivation [Importance of the problem].
- Post/Related work [Existing methods including pros and cons of the methods should be cited wherever possible].
- Challenges [Difficulty in the problem solving].

Chapter 2

Literature Review

Deep learning has revolutionized artificial intelligence, enabling significant breakthroughs in various domains.

The foundation of modern deep learning is well captured by Goodfellow et al. in their book Goodfellow et al. (2016), where they provide an extensive discussion on neural networks, optimization strategies, and deep architectures. This work serves as a comprehensive resource on the mathematical and practical aspects of deep learning.

In 2016, He et al. introduced the concept of deep residual learning in He et al. (2016). Their work addresses the challenges of training very deep neural networks by introducing residual connections, which help mitigate the vanishing gradient problem. By using identity mappings, the proposed residual networks (ResNets) allow for more effective gradient flow, leading to significant improvements in deep model training. Their architecture achieved state-of-the-art performance on benchmark datasets such as ImageNet, demonstrating the importance of deeper networks in advancing computer vision tasks.

Figure 2.1 illustrates an example image.

Category	Value 1	Value 2
A	10	20
B	15	25
C	20	30
D	10	50
E	50	80
